

Daylight 6,000K

Component Inspection

2in1
LIGHT SOURCE

UV-A 365nm

Conformal Coating Inspection

With 2 brightness levels, powerful Daylight 6,000K LEDs ensure clarity and shadow-free illumination

UV-A (365nm) LEDs are ideal for conformal coating inspection as well as thorough checking of soldered joints, welds and other mechanical stress areas

100% ESD SAFE

**Independently certified for use in electrostatic
protected areas to the international ESD Standards
IEC 61340-5-1 and ANSI/ESD 20:20**

FREE MOTION JOINTS

No adjustment necessary: specifically constructed using free motion joints instead of wing nuts, iQ ESD will always hold position

ESD SAFE LENS

Optical quality glass lens with ESD safe dissipative coating for guaranteed ESD protection
